EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The title was amended to read as follows:

Apparatus ~~and method~~ for fabricating holey optical fiber

Specification:

At page 1, before line 1:

This application is a Divisional Application of U.S. Serial No. 09/798,706, filed March 2, 2001, now U.S. Patent Number 6,705,126.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the primary reason for allowance is that the cited prior art fails to disclose or reasonably suggest an apparatus for fabricating holey optical fibers comprising the claimed combination of a preform cover/sealer, gas supplier/storage, a pressure regulator/ regulator and a heating means/ heater as recited in claims 5 and 8.

In particular, the cited prior art discloses a cover connected to a vacuum source that were previously deemed as the claimed preform cover/ sealer and gas supplier/storage but the cover/sealer are not configured to supply gas to holes of the optical fiber via the preform cover/ sealer as instantly claimed.

Art Unit: 1731

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
